Alireza Teymuri

Software Developer | Computer Engineering Student

@ teymuri.alireza98@gmail.com 🔗 github.com/teymuri-alireza 📍 Tehran, Iran

ABOUT ME

Computer Engineering student focused on web development and back-end systems. Proficient in Python and currently advancing skills in ASP.NET Core. Comfortable working in Linux environments, quick to adopt new tools, and driven by a strong interest in cyber-security and ethical hacking. Seeking internships or junior web developer roles where I can apply clean coding practices and grow in full-stack development and secure software design.

SKILLS

Languages

ASP.NET Core **Python** **Html & CSS**

Databases

PostgreSQL **Microsoft SQL Server**

Tools

Networking **Git** **Linux**

PROJECTS

port-xray

🔗 https://github.com/teymuri-alireza/portxray

A Python-based port scanner tool that supports service version grabbing.

cryptography

🔗 https://github.com/teymuri-alireza/cryptography

A collection of cryptography algorithms and codes implemented in different programming languages.

EDUCATION

2024 - Present ● Bachelor of Computer Engineering
Islamic Azad University
